

# TOUCAN 10E

## SETTING A NEW STANDARD

Meet the JLG Toucan 10E, the all-new electrically-powered vertical mast lift with a 10 metre reach and go everywhere capability\*. True to the traditions of the groundbreaking Toucan range, the Toucan 10E has today's industrial, maintenance, retail and institutional-facility needs covered. The Toucan 10E is easier to run, easier to maintain, more versatile and less costly to operate. It is the new standard.

\* On finished surfaces

## TOUCAN 10E BENEFITS

- 25% gradeability and improved ground clearance
- Easier fleet management
- Lower maintenance and running costs
- Easier to operate
- Higher drive speed
- Unrestricted capacity for outside use

## MORE PERFORMANCE

The Toucan 10E combines JLG's proven heavy duty forklift-style mast technology with a host of new standard-setting features. It has two high-efficiency AC motors plus improved proportional drive and lift controls for smoother operation. It has a two-person indoor/outdoor rating. It's more efficient. It recharges faster and goes longer between charges. It's low noise and zero-emission. With a gradeability specification of 25%, the Toucan 10E makes light work of steep inclines. Its 345-degree swing makes positioning a snap. Then there are the new platform, new jib and extended outreach that together bring hard-to-reach places within reach – safely. Not to mention the rugged, non-marking tyres that ensure floors remain spic and span. So whether the job involves assembly lines, shelves, ductwork or partitions, whether it's indoors or out, just grab the Toucan 10E and get it done.

## MORE VALUE

The Toucan 10E delivers unrivalled value across the board. Take the simplified hydraulic system – with just six hoses, the number of potential leakage points has been reduced by 75%. The advanced brushless AC motors with direct-drive technology deliver unmatched efficiency, noticeably cleaner and quieter operation, exceptional torque – and a faster drive speed of 5.5 km/h. Then there is the integrated rapid-charge power pack. With its 240 A/hr capacity, it will last a full shift. The Toucan 10E continues a number of 'classic' Toucan traditions as well. The heavy duty, jam free forklift-style mast is easier to inspect and maintain. The on-board diagnostic controls, based on an ADE (advanced design electronics) system, make troubleshooting a snap. Put it all together and you have the Toucan 10E in a nutshell: simply more value.

## TOUCAN 10E SPECIFICATIONS

- Working height: 10.10 m
- Platform height: 8.10 m
- Stowed height: 1.99 m
- Overall width: 0.99 m
- Overall length: 2.82 m
- Up and over height: 6.51 m
- Horizontal outreach: 3.08 m
- Platform capacity: 200 kg
- Jib-overall length: 1.60 m
- Standard platform size: 0.90 x 0.70 m
- Ground clearance: 10.5 cm
- Weight: 2990 kg
- Drive speed, lowered: 5.5 km/h
- Drive speed, elevated: 0.75 km/h
- Gradeability: 25%
- Use: Inside and outside, 2 persons.
- Drive motors: 2 AC motors
- Hydraulic system: 6 L
- Standard equipment: Operator tool tray, non-marking tyres
